Relationship to donor:	<input type="text"/>		

C SAMPLER

To be completed by the sampler. Name and address

Sample ID sticker

Identification Documents Produced

(Please attach photocopies to this form where possible)

Passport: <input type="checkbox"/>	Other Identity document: <input type="checkbox"/>
------------------------------------	---

Country of issue:

Norwegian issued Driver's Licence: <input type="checkbox"/> (with photo)	Norwegian issued Travel Document: <input type="checkbox"/>
--	---

Tick if no ID documents have been provided

DECLARATION & IDENTIFICATION: I certify that I have checked the identification of the donor named above and that the documents and photograph provided correspond to the person who provided the DNA sample.

Sampler's
Signature:

Date:

How to fill out the Sample Declaration Form (SDF)

- Please fill one Sample Declaration Form per donor.
- Make sure that the donor's DUF number is correct and legible in the upper right corner on the SDF.

- Section A – To be completed by the donor/parent/guardian

The sampler must make sure that

- the personal information is correct
- the form is signed by the donor and/or the parent/guardian
- a photo of the donor is attached to the form

- Section B – To be completed by the parent/guardian

Only to be filled out when the donor is under 18

- Section C – To be completed by the sampler

The sampler must fill out section C, and sign the SDF

Place an ID sticker in the designated field

Attach a copy of the donor's ID documents to the SDF

Sample ID stickers

The sample kit includes stickers with a QR code that corresponds to the bar code on the sample card (nucleic card). Several stickers might be included in the kit, but only two are necessary for the completion of the test: one for the SDF, and one for the small envelope that you place the sample card in.

N.B. As the stickers connect the sample card to the SDF, there is no need to write the name of the donor on the sample card. (The laboratory prefers that you do not write anything on the sample card to prevent DNA-contamination.)

Eurofins Case no.

This number is not to be filled in by the sampler. It will be added by the laboratory when they receive the sample and SDF.

Further information

Before collecting the first DNA sample using Eurofins' kit, we advise that the sampler reads the instructions included in the kit carefully and that you watch [Eurofins' instructional video](#).

If you encounter any problems downloading the Sample Declaration Form or the instructions, please contact us at DNA@udi.no and we will send you what you need via e-mail. All other inquiries regarding DNA should be sent to the same address.
